New Companies are likely to be formed hero from time to time for a variety of purposes, and there is no reason to suppose that investments made in their shares in the early stages of their history as dividend-paying Companies; may not, in the course of years, show as handsome profits, and as vast increases in value as any known THE Underwigned having been appointed in the past. The Stocks and Shares of existing Agents for the above Company, are Companies afford also, on occasions; favourable proportunities for investment

8.—It will form no portion of the business of this Company to float new Companies, underwrite shares, or invest or deal in anything but the Stooks, Shares, and Debentures of the enterprizes indicated in paragraph 1. There are few or no permanent investors in the Colony, and there are therefore great and frequent fluctuations in values. Tioever changing nature of the population is constantly throwing shares and stooks upon the

market, quite apart from the operations of speculative dealers, and thus very valuable opportunities are constantly being offered to buyers with capital at command The Company will, it is hoped, not morely secure reasonable profits for its shareholders, but will confer a benefit on the shareholding community generally by steadying the local!

10.—Considerable profits may also be auti cipated from the amployment of a portion of the Company's resources in " Cash and Time " dealings in shares, identified by numbers or otherthe wise, and deposited in the hands of the Company or with its Bankers. Those acquainted with this class of business in Hongkong and Shanghai are roll awars of the heavy rates of interest paid in respect of such transactions, and will see what an opening exists for a business as

safe as it is profitable. 11.—Between the Head Office is Hongkong and the London Branch or Agency, useful business in the nature of "Arbitrage," now growing into importance, may be transacted. 12.—In one or all of the forms of business indicated in the preceding paragraphs, it is enticipated that handsome profits may be made, and by indicious admixture and selection, it is believed
